And the Other Presidential Candidates Is Clearly Shown In "The Digest's" Mammoth Poll Of 11,000,000 Voters

There are from fifty to sixty thousand votes being received daily in THE LITERARY DIGEST'S great presidential poll of 11,000,000 voters. As the vote grows and all sections of the country begin to be represented, a number of editors comment on the really popular expression of opinion which these ballots represent. The Troy Record makes the interesting suggestion that by means of such polls "it may be possible for the people to shake themselves free from paid publicity and artificially stimulated candidacies and indicate the men they want to that class of representatives who really want to know." In trade and labor circles, in political clubs, in fact wherever men and women congregate throughout the country, THE LITERARY DIGEST poll is arousing the most interest, as is evidenced by our

More than 700,000 votes are tabulated and shown in THE LITERARY DIGEST for May 8th. When it is remembered that eleven million voters, almost two-thirds of the vote cast in the last presidential election, are being canvassed, some idea of the magnitude of the enterprise will be gained. Every ballot is mailed in an envelope, and delivered through the U. S. Postoffice personally to the voter addressed. Return postage on the ballot is prepaid, and the voter has only to check or write the name of his or her party and the first and second choice

for Presidential candidates. Thus every vote cast is absolutely a secret ballot. If you are not following this unique poll through the pages of THE DIGEST weekly, begin to do so this week. Other important articles in this number of THE DIGEST are:
